HEART ACTIVITY IN PRESCHOOLERS WITH WILLIAMS SYNDROME RESEARCH

Researcher: Holley Pitts Arnold, PhD

Researchers at the University of South Carolina want to learn about heart activity and development in children with Williams syndrome.

What does this study involve?

- A virtual meeting with the researcher (1 hr)
- Your child will watch videos while wearing a small heart rate monitor (10 min)
- You will complete questionnaires about your child (45 min)
- Receive \$50 for participating!

Where will the study take place?

- From the comfort of your own home!
- We will mail you a kit with a laptop and a heart rate monitor.
- We will meet virtually and remotely connect to the laptop, running everything for you!

WHO CAN PARTICIPATE?

We are recruiting 3 – 6-year-olds with Williams syndrome and their mothers.
